Together, we are working toward a future where **NO CHILD** in Dawson County has to carry their belongings in a trash bag.

This project was made possible through a generous grant from the **LEXINGTON COMMUNITY FOUNDATION** and the collaboration of several local nonprofit organizations with one shared mission:

Compassion. Collaboration. Community.

By working together, we provide children entering foster care with backpacks filled with comfort, essentials, support, and love during times of uncertainty.

We invite community members, partners, and supporters to join us as we share the heart behind this project and celebrate what can happen when a community comes together for its children.
